

CHIODI A STECCA (LISCI-ELICA-RING)

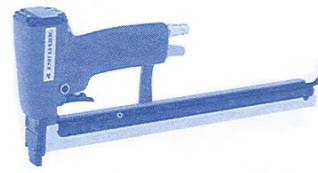

DESCRIZIONE TECNICA

I chiodi a stecca in plastica sono prodotti per l'industria del legno. Hanno una finitura bronzata e possono essere usati per svariate applicazioni. Possono avere una finitura liscia, ad elica o a spina di pesce (smooth, screw, ring).

DATI TECNICI

Articolo	Diametro gambo \varnothing	Inclinazione	Lunghezza gambo (mm)	Finitura
SNP 28	2,8mm	21°	60-65-70-75-80-85-90mm	liscio/elica/ring
SNP 31	3,1mm	21°	70-75-80-85-90mm	liscio/elica/ring
SNP 34	3,4mm	21°	100-110-120mm	liscio/elica/ring
SNP 38	3,8mm	21°	100-110-120-130mm	liscio/elica/ring
SNP 42	4,2mm	21°	140-145-150-160mm	liscio/elica/ring
